Travertine

Marble

Limestone

From quarry directly to your warehouse, Lone Star Marble offers fully containerized service. We are a fully integrated Turkish natural stone company providing travertine, marble, limestone and onyx via full containers. We have the total control of our operations from selecting the materials from selecting the materials to the shipment of all of our containers by our own quality control team from the quarries directly to our customers locations.

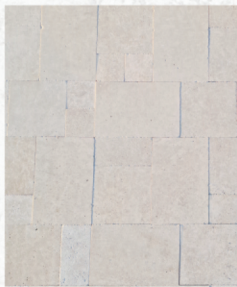

NATURAL STONE

Travertine

Travertine is classified as a sedimentary stone and is a form of limestone. A classic feature of paving, flooring and architectural elements throughout history, travertine is a much desired and accepted fixture in the modern marketplace.

Corumar LLC makes a consistent effort to offer a noteworthy collection of modern travertine.

It is our utmost priority to take care of our customers' needs and concerns! Please give us a call any questions you may have and we would love to answer them.

From quarry directly to your warehouse. Lonestar offers fully containerized service. We are a fully integrated Turkish natural stone company providing travertine, marble, limestone and onyx via full containers. We have the total control of our operations from selecting the materials to packaging them to the shipment of all of our containers by our own quality control team from the quarries directly to our customers locations.
